NETWORKS AND MEMBERSHIPS

[2022 – 2024] **Google Development Club** Izmir University of Economics

[2022 – 2024] **Cyber Security Club** Izmir University of Economics

[12/2023 – 05/2024] **Horizon Rocket Team** Izmir

The Rocket Competition aims to develop students' abilities by increasing their interest in space technologies, to raise awareness in society in the fields of aviation, space and technology, to support interested young people, to encourage them to do research on future technologies and to ensure that they become familiar with professional design processes.

My primary duty in the software team is to create a unique UI using my React knowledge, and in the software team, I continue to work on the rocket's software (receiving and processing altitude, pressure, GPS data with the ground computer).

Link: <https://www.horizonrocket.com>

[22/10/2022 – 05/2024] **Gameathon Game Development** Izmir University of Economics

Gameathon Events are organized by Izmir University of Economics Vocational School and participants are expected to develop a game from scratch within 24 hours. I not only provided the website and application infrastructure for this event, but also served as the director throughout the event.

[05/2024] **6.Unigraph Design and Creativity Festival** Izmir

Link: <https://www.ieu.edu.tr/tr/events/type/read/id/1618>

[04/2024] **Huawei Student Developers R&D Meeting** Izmir University of Economics

I attended the Huawei R&D Meeting organized by Huawei Student Developers. I had the opportunity to ask questions about Huawei's projects and entrepreneurship. Thank you to Huawei, HUAWEI Student Developers (HSD) Türkiye for organizing the event, and special thanks to Huawei R&D Director Fatih Mert and his team for their participation

PROJECTS

[2024] **Modern Portfolio**

A portfolio website is a digital platform that showcases the professional endeavors, projects, and career progression of an individual or a company.

Link: <https://ayberkyavas.com>

[06/2024 – 07/2024] **Reform Marine**

Reform Marine offers customized solutions to the maritime industry as a company specialized in electrical systems maintenance and repair. Our professional teams optimize the travel experience by improving the safety and performance of marine vessels with electrical maintenance services. I made web application for this brand.

Link: <https://www.reformmarine.com>

[12/2023 – 05/04/2024] **Teknofest Rocket Competition**

The Rocket Competition aims to develop students' abilities by increasing their interest in space technologies, to raise awareness in society in the fields of aviation, space and technology, to support interested young people, to encourage them to do research on future technologies and to ensure that they become familiar with professional design processes.

My primary duty in the software team is to create a unique UI using my React knowledge, and in the software team, I continue to work on the rocket's software (receiving and processing altitude, pressure, GPS data with the ground computer).

[06/2023 – 07/2023] **Pinyin Marine**

I developed a corporate website for Pinyin Marine using HTML, CSS, and JavaScript. The site was designed and coded meticulously to effectively showcase the company's expertise and wide range of services in the maritime industry

Link: <https://www.pinyin-marine.com/>

[04/2023 – 06/2023] **Parkpin Smart Parking**

Parkpin Smart Parking is an application that allows users to view all parking lots on a map, obtain information about the parking lots, reserve a spot, and make online payments.

Link: <https://github.com/LoyalEnv0y/ParkPin-V2>

[09/2022 – 01/2023]

Gameathon Full Stack

Gameathon Events are organized by Izmir University of Economics Vocational School and participants are expected to develop a game from scratch within 24 hours. I not only provided the website with admin panel and application infrastructure for this event, but also served as the director throughout the event.
